PNG Labour & OHS

CORE SERVICES

- Solar PV + BESS
- Hybrid Systems
- Mini-Grids
- Solar Street Lighting

DELIVERY CAPABILITY

Design • Supply
Install • Commission
Operations & Maintenance
Technical Support

AWARDED PROJECTS

5+
Major Projects

TECHNOLOGY PARTNERS

8+
Global Manufacturers

SECTORS SERVED

Government • Education
Healthcare • Commercial
Industrial • Mining
Communities • NGOs

GEOGRAPHIC REACH

NCD • Madang
East Sepik
Eastern Highlands

WHAT WE DELIVER

- ✓ Solar Home Systems for rural and remote households
- ✓ Commercial & Institutional Solar PV and BESS solutions
- ✓ Hybrid Systems (PV + Battery + Generator)
- ✓ Mini-Grids for off-grid communities and institutions
- ✓ Solar Street Lighting for safer communities

WHY CHOOSE POWERON?

- ✓ 100% PNG-owned with deep local expertise
- ✓ End-to-end project delivery
- ✓ Tier-1 technology with manufacturer warranties
- ✓ Certified engineers and technicians
- ✓ Strong community engagement and capacity building
- ✓ Reliable after-sales support and service

AWARDED PROJECTS

1	SUMKAR DDA SCHOOLS ELECTRIFICATION PROGRAMME  Karkar Island, Madang Province Sector: Education & Community 8 Schools 8kW PV BESS for administration - Solar Home Systems for teachers' housing - Solar Street Lighting	YEAR OF IMPLEMENTATION 2026  IMPACT 3,000+ students 80+ teachers 30+ communities - Improved learning environments and safety
2	PACIFIC RACING HEADQUARTERS  Port Moresby Sector: Commercial 200kW Hybrid Solar PV 416kWh Battery Energy Storage System	YEAR OF IMPLEMENTATION 2026  IMPACT 50%+ reduction in diesel use - Lower operating costs - Reliable power during outages - Improved operational resilience
3	PACIFIC RACING – WEWAK  Wewak, East Sepik Province Sector: Commercial 50kW Hybrid Solar PV 60kWh Battery Energy Storage	YEAR OF IMPLEMENTATION 2026  IMPACT - Reduced fuel use - Uninterrupted and reliable power - Improved business continuity
4	PACIFIC RACING LAHANIS – GOROKA  Goroka, Eastern Highlands Province Sector: Commercial 50kW Hybrid Solar PV 60kWh Battery Energy Storage	YEAR OF IMPLEMENTATION 2026  IMPACT - Reliable power during outages - Improved business continuity - Lower operating costs
5	CENTERPOINT BETTING – GOROKA  Goroka, Eastern Highlands Province Sector: Commercial 50kW Hybrid Solar PV 60kWh Battery Energy Storage	YEAR OF IMPLEMENTATION 2026  IMPACT - Reliable power during outages - Improved business continuity - Reduced generator reliance

PROJECT FOOTPRINT

Delivering renewable energy solutions across Papua New Guinea
